Thank you to everyone who participated in Sprints this year. Sprints are a great way to get on the water and get to know members of other teams. While our overall turnout (cough cough, wahine...) was on the low side, we did well in the events overall.

For both our first and third sprint, O Kalani received second place overall (Big Club), and for sprint two, we got First (Small Club)!!

<u>Insure your OC1!</u> It is highly recommended that you insure your boat, particularly if you trailer it anywhere. Most insurers can add your boat to homeowners or renters insurance at a reasonably low rate. Personal canoes are not covered by any club insurance.

<u>O Kalani purchased a new Ama for Ikaka</u> → oooh pretty. No Scratches! This is a new design with better connection. The old Makalapua ama will be kept in reserve.

What you might call the optimal stroke rate depends on a combination of factors such as the individual, the race distance and the conditions you're paddling in. There is no quick and simple answer to which stroke rate is optimal. Read more...

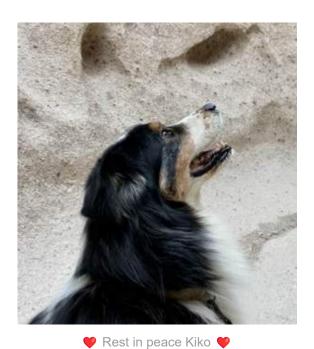

On Being Coachable... OC6 Huli Recovery...

Last question... Why do we carry our OC1s into the yard, turn them, set them down to wash, pick them up, turn a second time, head to the end of the yard and turn a third time to set them down before we re-rack them? Why?
